Raining Season	Winter
Water Density	1.025 g/cm ³
Tide Range and Flow	0.46 m
No air draft/beam/DWT restrictions.	

Berth Details for Petroleum Basin

Berth Number	Depth
87/1	33 ft
87/2	33 ft
87/3	33 ft (10.05 M)
87/4	34 ft (10.35 M)
87/5	34 ft (10.35 M)

Berthing / Discharging Prospects

- Tanker is expected to berth for discharging upon arrival or next day morning, if weather permits.
- Tanker should be fitted with 12 mooring ropes minimum (wires are not acceptable).
- Discharge rate for gasoil is around 250 tons per hour (total around 6000 Mt / day)
- Discharge operating hours: 24/7.
- Fridays & Saturdays are official weekends; however work will continue as normal.

Berthing Delay

- Bad weather and if wind speed exceeds 20 kms, which suspend movement traffic from and to the inner port.
- High swell, which will also suspend port movements.
- If any other vessel occupying berths.

Night Berthing

Vessel can enter/sail at nighttime; however the Alexandria Port Authority may suspend night movements, if weather does not permit.

For EGPC Terminals night movements are not permitted; however for vessels with GRT less than 5000, we can try to obtain special approval from the port Authority allowing her movements from/to berth.

F: +20 3 480 7988

Switch Board Gate 27 (24/7)

T: +20 3 483 7161 - 483 7162 Ext 1059

T: +20 3 483 7163 - 483 7165 Ext 1069

Pollution

Egyptian authorities are very strict on pollution issue. Washing, cleaning, painting, blasting, chipping etc. outside/inside of the vessel that may cause spillage in the water, deballasting, spillage, littering are strictly forbidden in Egyptian Territorial Waters. Please pay much attention in these issues, especially when bunkering or supplying of oil in order to avoid heavy fines.

Ballast Water

In accordance to the Arab Republic of Egypt's strategy to apply International Convention for the Control and Management of Ships' Ballast Water and Sediments, you are kindly requested to alert all the maritime agents of the following:

- Notify the vessel that wishes to discharge her ballast water into the marine surface of the Authority to replace her ballast first before entering the port at a distance of at least 50 miles and depth not less than 200 meters. This replacement operation shall be recorded in the Ballast Water Record Book.
- The PA and the Egyptian Authority for Maritime Safety shall be notified on any vessel requesting the discharge of ballast water into the marine surface with ample time. The aforementioned shall be made through presenting an application to the mentioned authorities, that include the vessel's particulars and the time of discharge of the ballast water, provided that the PA has given the approval of the Marine Inspection Central Department before the vessel discharges inside the marine surface of the Port.

Clarkson Shipping Agency ("the Agency") Instructions

- Information/instructions concerning all matters should be directed to the Agency, who will coordinate and authorize additional requirements.
- Do not sign/stamp any time sheet from any party prior consulting the Agency.
- Do not sign/stamp any blank paper. No blank space below signature.
- Before signing any presented document, master should clarify necessity of particular service offered.
- As per the Port regulations, please do not use any ship chandler, marine contractor or suppliers unless authorized by the Agency.
- Service requested should be rendered in a satisfactory manner before signing.
- Do not sign any vouchers/invoices for services not rendered.
- All vouchers/invoices should state an amount and a type of service requested.

The PA Instructions

- Vessel should keep deck lights "ON" during nighttime.
- Vessel should keep AIS tracking open around-the-clock.
- Vessel should keep VHF open at all times since her arrival for port and pilot arrangements.
- Vessel should report her arrival via VHF, otherwise she will not be considered as arrived and will lose her berthing turn.
- Vessel should maintain open Channel 16 on an ongoing basis with port radio.
- Vessel should assign duty crew members on front and rear of ship's deck "24 hours".
- Report immediately to the Port Control about any suspicions/unusual condition.
- Instructions to be followed during bad weather:
 - The emergency plan of the bad weather conditions pursuant to what is mentioned in the International Safety Management Code ("ISM Code") and the ISPS Code to preserve the safety of vessels and safety of navigation at the port to be followed and applied.
 - The mooring ropes of the vessels to be tighten continuously during berthing alongside quays to ensure the safety of vessels and properties of the PA after notifying the transit department.
 - The vessels' crew must look for and resolve any problems at early stage during the vessel's presence either in the inner anchorage area or during berthing alongside quays to ensure the safety of the vessel, her crew and to preserve the PA's properties.
- No ballast water to be pumped while vessel in port unless prior approval from Marine Pollution Protection Department is obtained. Please send your written request to the Agency representative to obtain this approval.
- Crew will not be allowed to leave the vessel unless free pratique is obtained.
- As per harbor master instructions, at least 60% of crew must be on board and ready all the time for any possible shift.
- PA issued an official notice to owners and master that totally prohibits disposal of fumigation powders/tubes and/or any related materials/equipment (if any) inside the port under any circumstances. In case of non-compliance, legal responsibility before the Port Authorities will be occurred.
- Boat drill, firing shots, washing and painting hull, welding and metal cutting, riveting, throwing wastes in water, picking objects from water, embarking or disembarking persons without permission are prohibited.
